Action Take Report for Academic Session 2018-19

Action Taken on Institutional Feedback from Students (Session 2018-2019)

Based on the analysis of feedback and grievances about the entire college scenario of which the curriculum and teaching learning process forms a formidable part, suggestions are communicated to the respective departments to act and react on the academic part. These departments are instructed to implement appropriate measures to enhance the quality of overall teaching-learning process, and they are required to submit a report detailing the actions taken.

Based on the analysis of the feedback report of the whole college, it is evident that certain areas demand our focused attention. These include the improvement of recreational facilities, integration of technology into our daily teaching routines, and enhancement of the quality of food in the canteen, elaborated as underneath.

- A thorough assessment of the current recreational facilities was undertaken to identify areas in need of improvement. Student input has been gathered through surveys to gain a deeper understanding of their recreational preferences. As a Government College, any allocation of funds is contingent upon obtaining permission from the Government. Proposals have been submitted to enhance and upgrade recreational amenities, including improvements to the accessibility of sports equipment and modifications of common rooms.
- Faculty members are encouraged to participate in workshops focused on effective integration of technology in teaching, covering tools and methodologies to enhance and upgrade the learning experience.
- An analysis was conducted on the existing menu of the canteen, leading to the introduction of healthier and more diverse food options.
