The IQAC plays a vital role in affirming and refining the quality of education and the overall functioning of an institution. Below are the actions undertaken by the IQAC, vividly throughout the year in the progress of the quality of the college setting.

- ❖ Initiatives have been taken for the introduction of certificate courses on Basic Knowledge of Information and Communication Technology (ICT) and Spoken English. This reflects a strategic response to the evolving demands and requirements in the educational landscape. Moreover, the introduction of value-added courses by the college reflects its appropriate response to contemporary social and educational needs.
- ❖ An online career counselling program named "DISHA" was organized, providing valuable guidance to aspiring new applicants who have recently completed their 10+2 education. The program aimed to offer suggestions on career prospects, tips for selecting subjects, and insights into various career options. - ❖ In pursuance of the last years' plan a workshop on Professional Development of Science Teachers and Researchers of Higher Educational Institutions was organized. Moreover, preparations for organizing a Seminar on Outcome Based Education Policy (OBE) have also been initiated.
- ❖ During the pandemic situation, online modes are utilized to collect feedback from students and teachers along with collection of profile-related data. The Google Forms are created and circulated among students and teachers. The collected feedback is then analysed and appropriate actions are taken based on the responses.
- ❖ The process of reorganizing the college website has commenced, employing a strategic and comprehensive approach. The objective is to develop a user-friendly, informative, and engaging online platform for both the college community and external stakeholders. These initiatives hold significant importance in the realm of online education particularly during the time of pandemic.
- ❖ The data processing cell was established to function as a dedicated unit or team with the specific purpose of obtaining relevant data related to NAAC (National Assessment and Accreditation Council) and NIRF (National Institutional Ranking Framework). This establishment signifies a structured approach to gather, process and manage information essential for the accreditation process.
- ❖ Teachers are constantly advised to get themselves engaged in faculty development initiatives and training sessions, including Refresher Courses, Orientation Programmes, FDP, and other professional development and administrative training programs.

Guided by the suggestions, recommendations, and initiatives of the Internal Quality Assurance Cell (IQAC), the institution has undertaken the laudable actions directed towards an optimistic development of the academic spectrum.

- ❖ Motivational talks and lectures are organized by various departments to inspire their students by the successful Alumni of the institution. Such interactions helped the students to pursue their future career effectively.
- ❖ The Department of Political Science effectively organized the observance of Constitution Day on November 26, 2020, employing online platforms. The successful execution of this event through online mode implies a transition to virtual methods for commemorating significant occasions. This

adaptation is particularly noteworthy in the context of the global pandemic where physical gatherings and events faced restrictions.
