MTTS Workshop Report

Workshop/Seminar Title: MTTS Overture

Workshop/Seminar Date: 25-27 November 2024

Venue : Department of Mathematics, Acharya Brojendra Nath Seal College

Attended by : All undergraduate mathematics (Hons) Student

Resource Person : Prof. Bhaba Kumar Sarma, IIT Guwahati and Dr. Bikash Chakraborty, Vivekananda College, Rahara

Organizer : Department of Mathematics, Acharya Brojendra Nath College, Coochbehar-736101

Content of the Workshop: The first day commenced with a brief presentation by Prof. Bhaba Kr. Sarma. He emphasized on Pedagogy & Learning Outcomes in Mathematics. Various methods of Teaching of Mathematics text books in innovative and productive ways were discussed. Examples of making Number System interesting were shared by teachers from different branches. Prof. Sarma also enlightened us that teaching Methods Must Change Over Time. A small story about Ramanujan Hardy number was narrated followed by a challenging and creative worksheet on Number System. It was emphasized that topics should be taught using Heuristic Method so that the students should discover various methods by inductive approach. A light was thrown upon the Egyptian and Russian methods of multiplication which was very interesting.

In the second day, Prof. Bikash Chakraborty discussed about Geometrical concepts. Pointillism theory by George Seurat was discussed. All the teachers also prepared beautiful drawings using pointillism. Concepts of line, ray, curved lines, intersecting lines etc. were discussed in a play way manner using an ink pad, A-4 sheet, sketch pens, scale, scissor, etc. Further the teachers were divided in the groups of 4 and were given a task to choose any topic and give a presentation on data handling. All the groups shared different ideas and we analyzed the importance of how to make concepts easy and interesting for the students. Hence emphasis was on integration of Mathematics with child's day to day activities.

In the 3rd Day, the workshop was headed by Dr. Bhaba Kumar Sarma He discussed Stochastic Differential Inclusions with various examples. He explained most of the concept with the practical session. The last session was an open forum for all the participants who were participated in the workshop.

2. Learning outcomes (Knowledge and Information) from the workshop/Seminar?

- Exposure to innovative methods for making Mathematics interesting and easy for the students so that they can learn it in a play way manner.
- Sharing interesting experiences and stories from day to day life to make the topic relevant and interesting.

- Setting up of clear goals for expected learning outcomes.
- Pedagogical process should be, age appropriate inclusive and time bound.

The flyer features a light green background with a subtle geometric pattern and decorative green starburst elements. At the top left is the MTTTS TRUST logo, which includes a stylized blue figure and orange blocks. The title 'MTTTS Overture' is prominently displayed in red. Below the title, the programme description is centered. A red horizontal line separates the objectives section, which lists two bullet points. Another red horizontal line follows. The dates and venue are listed in a dark red font. The coordinator's name is presented in bold black text between two horizontal lines. The organizing department is listed below, also between two horizontal lines. The bottom of the flyer is decorated with a dark green band containing several green starburst graphics.
